DETAILED ACTION

1. Claims 1-47 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, 13-22, 24-33 and 39, drawn to a robot apparatus and a method of controlling having a behavioral model or a feeling model changed at least based on extraneous factors..., classified in class 700, subclass 245.

- II. Claims 11-12, 23, 34, 40 and 47, drawn to a furnishing medium for furnishing a program to a robot . . . , classified in class 715, subclass 522.

- III. Claims 41-46, drawn to a display method, classified in class 375, subclass 240.08.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. Applicant is reminded that upon the cancellation of claims to a non-elected

invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. A telephone call was made to Mr. William E. Vaughn Reg., 39,056 on Wednesday, April 14, 2004 to request an oral election to the above restriction requirement, however Mr. William E. Vaughn was not available.
